Task 5:Inventory Stock for Warehouse Locations

Task 6:Sales Trend

Task 7:Monthly Sales

Task 8:Actual and Received Inventory by Month

Upload the dataset to Cognos Analytics

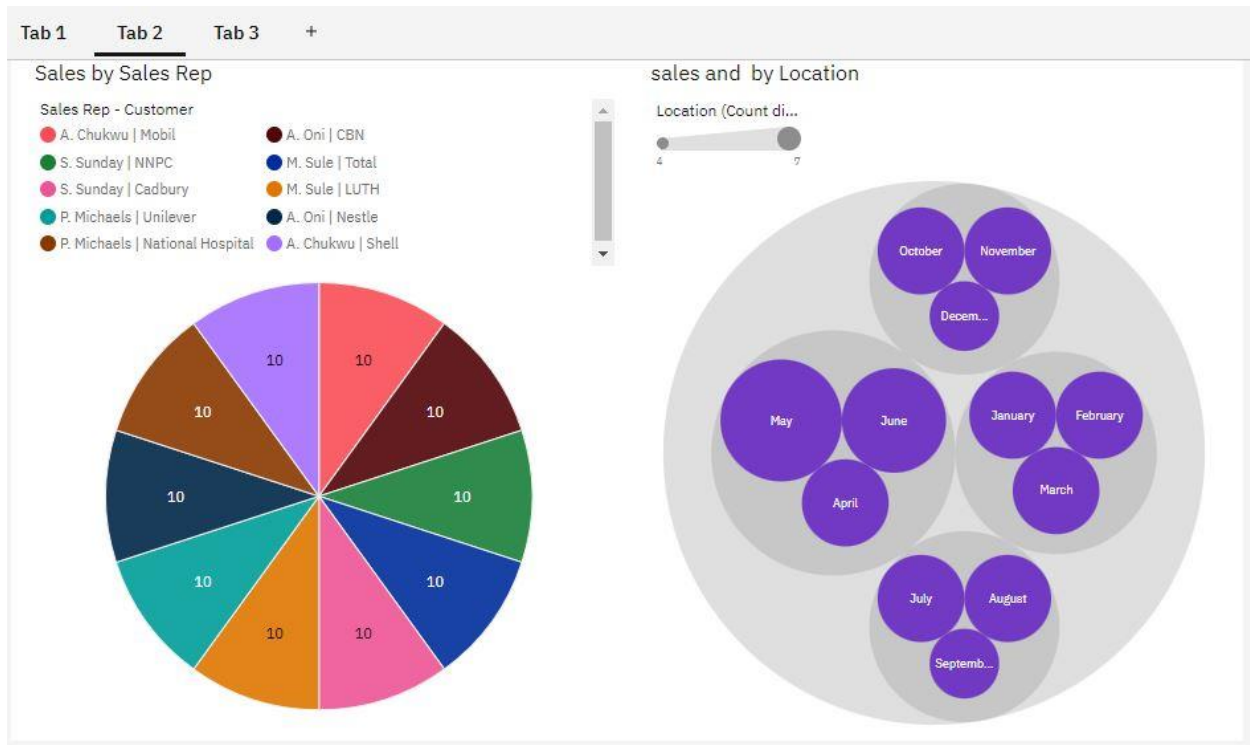

Task 1

When working together, sales and customer service teams create a more comfortable, user-friendly buying experience. Sales teams help customers find products and services and customer service ensures their interactions with the business remain positive over time

Task 2

Suppliers are where your raw materials come from, receivers are where your finished goods go, and transporters are the delivery middlemen that

Task 3

Sales analytics refers to the technology and processes used to gather sales data and gauge sales performance

Task 4

Sales by region basically shows you how well a product performs in a certain area. So' let's say that your business launches a new product, and you want to see how well it does worldwide. Through sales by region

Task 5

Manage stock at multiple warehouses with a single system - Track items and manage orders. Zoho Inventory is complete warehouse management

Task 6

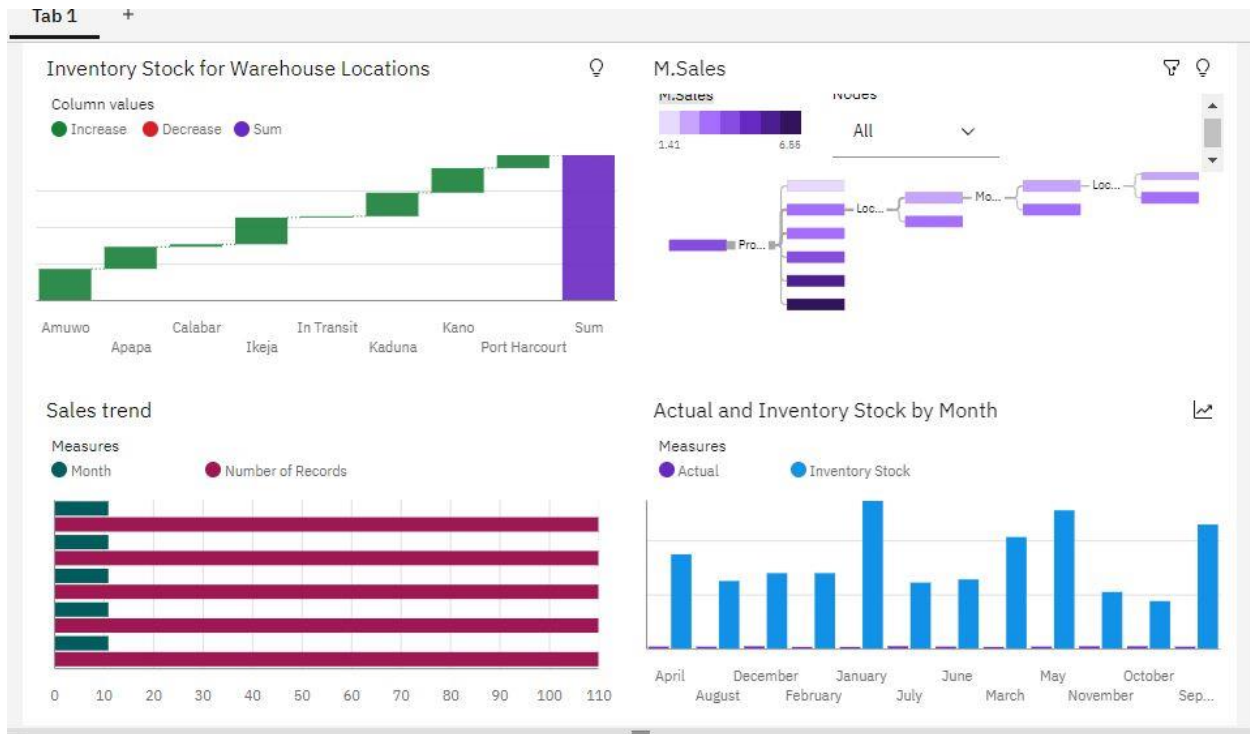

Manage stock at multiple warehouses with a single system - Track items and manage orders. Zoho Inventory is complete warehouse management

Task 7

Sales trend analysis is the review of historical revenue results to detect patterns. It is a useful budgeting and financial analysis method that can indicate the onset of changes in the near-term revenue

Task 8

measure days cover calculation and other stock metrics by using Phocas business intelligence to manage stock or inventory efficiently
